

The 9th International Multidisciplinary Modelling & Simulation Multiconference

**Wien, Austria
September 2012**

www.liophant.org/i3m

General Chairs:

Prof. Agostino Bruzzone

Simulation Team M&S Net, MISS-DIPEM University of Genoa, ITALY

Prof. Yuri Merkuryev

Riga TU, Latvia

Program Chairs:

Prof. Francesco Longo

M&S Net MSC-LES, ITALY

IMAACA

Int. Conference on Integrated
Modeling & Analysis in
Applied Control & Automation

European Modeling &
Simulation Symposium

McLeod Institute of
Simulation Science
Workshop

The International
Conference on Modeling
& Applied Simulation

New Simulation Project
Workshop

Int. Defense & Homeland
Security Simulation Workshop

M&S Network
Workshop

The International
Conference on Harbour,
Maritime & Multimodal
Logistics Modelling &
Simulation

I3M 2012: New Edition

Next year the 9th edition of I3M will be held in the wonderful city of Wien renovating the opportunity to have an International Multiconference covering many different topics related to Modeling & Simulation in a sharp way and providing an ideal opportunity to meet together

European Modelling & Simulation Symposium - EMSS

The EMSS represents the 24th edition of the classic autumn M&S event in Europe; the Symposium is a really International meeting involving world experts in the area of M&S with special attention to methodologies, techniques and applications.

M&S Net New Simulation Project Workshop - NSP

This event is the ideal framework for setting up European Community and International Projects and it is an opportunity for hosting project review and exploitation meetings; NSP welcome submissions for panel sessions on new simulation project proposals.

The International Conference on Modeling & Applied Simulation- MAS

The MAS Workshop concentrates on applied M&S and IT Solutions; application fields include production, business and services; since 2002 MAS involves Experts and Users discussing about M&S as enabling technology for business and industry in real world.

The International Conference on Harbour, Maritime & Multimodal Logistics M&S - HMS

HMS Workshop is a traditional event and it was held successfully worldwide, usually in the surroundings of major international ports. It is focused on applications of simulation and computer technologies to logistics, supply chain management, multimodal transportation, maritime environment and industrial logistics.

IMAACA Conference

IMAACA focuses on all applications relevant to control & automation problems emphasizing the role of model analysis as integral part of the complete design of the automated system.

M&S Net Workshop

The MS&Net workshop aims to create an evolving framework for sharing experience and knowledge in which participants have the possibility of effective cooperation. Tracks organization is intended to cover all the research areas of MS&Net centers: knowledge exchange is the key of successful collaborations.

The International Defense & Homeland Security Simulation Workshop

DHSS focuses on M&S advances within Defense and Homeland Security framework; DHSS is part of I3M and involves industrial, governmental and academic top experts in this areas

The International Workshop on Innovative Simulation for Health Care

IWHIS is directed to scientists, technicians, users and decision makers that are interested in the fast evolving and innovative sector of applying modern M&S within Health Care. The workshop is evolution of very successful tracks and workshops organized in previous conferences and it is becoming in 2012 a self independent international workshop

The International Workshop on
Innovative Simulation for Health Care

www.liophant.org/i3m

McLeod Institute of Simulation Science Workshop

McLeod Institute of Simulation Science (MISS) is a Excellence Network involving worldwide 28 centers; in cooperation with the Society for Modeling & Simulation International, this workshop is a Meeting open to affiliated Centers and to external applicants

M&S Professional Courses at I3M

These M&S Professional Courses will be held in connection with I3M Multi-Conference; program, registration modules and tentative schedule are already available, please book them early. The M&S Courses are organized in cooperation with MISS-DIPTEM University of Genoa, Simulation Team and with Patronage Liophant Simulation and include foreground assessment for McLeod Institute of Simulation Science Professional Certification Program.

Paper Submission

Extended abstracts, full draft papers or other proposals should be submitted for the review process through the conference website.

Each extended abstract must include the title, authors, affiliations, addresses, main body and references for proper positioning in the conference. Each paper will be reviewed by at least two members of the International Program Committee taking into consideration scientific quality, originality and relevance. Only original papers, written in English will be accepted.

Your camera ready paper must be submitted through the conference website. Authors of accepted papers are expected to attend the conference, present their works, transfer copyright and pay conference registration fees at the time their camera ready papers are submitted.

Conference best papers will be directed to International Journals for possible inclusion through content extension.

Deadlines

Paper submission	May 15, 2012
Notification of Acceptance	June 15, 2012
Final Camera-Ready Submission	July 15, 2012
