Under the patronage of

ISM 2019 is held in collaboration with Smart Manufacturing Matchmaking 2019

This year the **International Conference on Industry 4.0 and Smart Manufacturing (ISM)** is held in collaboration with **Smart Manufacturing Matchmaking 2019** event, organised by University of Calabria, Enterprise Europe Network partners, SPIN, R&D Log, and jointly co-organized with several stakeholders for Industry 4.0.

Besides the ISM, the whole Smart Manufacturing Matchmaking 2019 event also includes:

- the *International Workshop on Innovation for Logistics (WINLOG)*, an initiative of the Pole of Innovation for Logistics ("SMART LOGISTICS") that includes Universities, Public and Private Research Centres and Companies working in the fields of Logistics. The workshop will include plenary and parallel sessions as well as panels that will focus on Innovations for Logistics.
- a *Brokerage Event*, organised by SPIN and the Enterprise European Network, which offers access to B2B meetings and access to specialised panels and workshops;
- the *invNET*, a SPIN/EEN action that aims to support companies and startups in projects, activities and visions with a strong economic and social impact, in the area of Smart Manufacturing and Industry 4.0.

ISM 2019

Registration and Information Desk

The registration and information desk is located at the Ariha Hotel Conference Center, Floor -1.

Opening Hours

Wednesday, November 20th – Friday, November 22nd

08:30 am – 12:30 pm

14:00 pm – 17:00 pm

ISM 2019

Demo Area

The demo area hosts booths and information desks of enterprises operating in the field of the Industry 4.0 and Smart Manufacturing as well as of research groups showing their latest scientific results and prototypes in the field. The demo area is located at the Ariha Hotel Conference Center, Floor -1.

Opening Hours

Wednesday, November 20th: 14:30 pm – 18:00 pm

Thursday, November 21st: 09:00 am – 18:00 pm

Friday, November 22nd: 09:00 am – 18:00 pm

Panel: “Shaping the Future of Industry 4.0 and Smart Manufacturing”

Co-Chairs: Francesco Longo, University of Calabria

Agostino Bruzzone, University of Genoa

- > Speakers
Michael Affenzeller, Upper Austria University of Applied Sciences
Nicolò Nicolosi, FESTO C.T.E.
Federico Iozzelli, Baker Hughes
Alfredo Garro, University of Calabria

14:30 pm – 16:00 pm

Expo Room 4

ISM

Digitization in Maritime Logistics: Shipping 4.0

Co-Chairs: Giuseppe Aiello, University of Palermo

Antonio Giallanza, University of Palermo

- > Towards Shipping 4.0. A Preliminary Gap Analysis (#6)
Giuseppe Aiello, Antonio Giallanza, Giuseppe Mascarella
- > Maritime 4.0 – Opportunities in Digitalization and Advanced Manufacturing for Vessel Development (#43)
Brendan Sullivan, Shantanoo Desai, Jordi Sole, Monica Rossi, Lucia Ramundo, Sergio Terzi
- > Calm-water Performance of a Boat with Two Swept steps at High-speeds:

Laboratory Measurements and Mathematical Modeling (#79)
Rasul Niazmand Bilandi, Luigi Vitiello, Simone Mancini, Vincenzo Nappo, Fatemeh Roshan, Sasan Tavakoli, Abbas Dashtimanesh

- > Shipbuilding Supply Chain Framework and Digital Transformation: A Project Portfolios Risk Evaluation (#32)
Rafael Diaz, Katherine Smith, Rafael Landaeta, Antonio Padovano

14:30 pm – 16:00 pm

Expo Room 2

WINLOG

Special Session: The Calabrian Innovation Poles Network (Part I)

Chair: Francesco De Bonis, Innovation Pole for Logistics

- > Topics
The Innovation Pole of Logistics
Calabria Region Initiatives for Innovation
The Innovation Poles Network

16:00 pm – 16:30 pm

Ariha Hotel – Main Hall

Digitalization in Supply Chain: Challenges and Opportunities from a Managerial Perspective

Co-Chairs: Eleonora Bottani, University of Parma
Barbara Bigliardi, University of Parma

- > A Control Strategy for Smart Energy Charging of Warehouse Material Handling Equipment (#84)
Raffaele Carli, Salvatore Digiesi, Mariagrazia Dotoli, Francesco Facchini
- > Goods Relocation Management in City Fashion Retailers with an Incentive System (#30)
Bartolomeo Silvestri, Michele Roccotelli, Raffaello Pio Iavaniglio, Luigi Ranieri
- > Supply Chain Risk Management: an Interactive Simulation Model in a Big Data Context (#26)
António Vieira, Luís Dias, Maribel Santos, Guilherme Pereira, José Oliveira
- > Internet of things and industry 4.0 applied in the delivery system for the bicipuma bike-sharing system in UNAM-Mexico (#74) ®
Armando Moises Pérez Silva, Veronica Olvera Rodriguez, Carmen Angelina

García Cerrud, Francisca Irene Soler Anguiano, Idalia Flores de la Mota

- > Designing Human Mistake-Free Machine: a Mexico City Public Transport Commuters' Approach (#69) ®

Adrielly Nahomee Ramos Alvarez, Francisca Irene Soler Anguiano, Idalia Flores de la Mota, Jessica López Moncada

16:30 pm – 18:00 pm

Expo Room 4

ISM

Towards Maintenance 4.0: Condition-based and Predictive Maintenance Applications

Chair: Salvatore Miranda, University of Salerno

- > Assessing the Predictive Maintenance Readiness of Enterprises in West Bohemian Region (#72) ®
Peter Poor, Josef Basl, David Ženíšek
- > Low-cost real-time monitoring of electric motors for the Industry 4.0 (#68)
Luis Magadán, Francisco J. Suárez, Juan C. Granda, Daniel F. García
- > A Real-Time Condition Monitoring and Maintenance Management System for Low Voltage Industrial Motors Using Internet-of-Things (#76) ®
Konstantinos Mykoniatis
- > A Hybrid Bond Graph Model-based – Data Driven Method for Failure Prognostics (#34)
Wolfgang Borutzky
- > Predictive Model for the Degradation State of a Hydraulic System with Dimensionality Reduction (#86)
Elena Quatrini, Francesco Costantino, Cesare Pocchi, Massimo Tronci

16:30 pm – 18:00 pm

Expo Room 2

WINLOG

Special Session: The Calabrian Innovation Poles Network (Part II)

Chair: Francesco De Bonis, Innovation Pole for Logistics

- > Topics
The Innovation Pole of Logistics
Calabria Region Initiatives for Innovation

Advanced Mobility Technologies: Fuel Cells and Innovative Propulsion Systems

Chair: Giuseppe Aiello, University of Palermo

- > Insights for Industry 4.0 Applications into a Hydrogen Advanced Mobility (#42)
Petronilla Fragiaco, Francesco Piraino, Matteo Genovese
- > Intermediate Temperature Solid Oxide Fuel Cell/Electrolyzer Towards Future Large-Scale Production (#45)
Petronilla Fragiaco, Giuseppe De Lorenzo, Orlando Corigliano
- > Propulsion Monitoring System for Digitized Ship Management: Preliminary Results from a Case Study (#5)
Giuseppe Aiello, Antonio Giallanza, Salvatore Vacante, Stefano Fasoli, Giuseppe Mascarella
- > Study on the Evolution of Large Yacht Project and Construction as Consequence of Environmental Rules (#7)
Valerio Ruggiero

09:00 am – 10:30 am

Expo Room 4

ISM

Digital Manufacturing: Towards Industry 5.0

Co-Chairs: Fabio De Felice, University of Cassino and Southern Lazio

Antonella Petrillo, University of Napoli "Parthenope"

- > Is a Digital Transformation Framework enough for Manufacturing Smart Products? The Case of Small and Medium Enterprises (#15)
Melissa Liborio Zapata, Lamia Berrah, Laurent Tabourot
- > IN2DIG – Implementation of a Digital Manufacturing System in a Production

Cell of the Metal Mold Industry: From Planning to Action (#20)

Fernando Piedade, Marcia Baptista, Paulo Chaves

- > Digital Manufacturing Challenges through Open Innovation Perspective (#31)

Marta Travaglioni, Angela Ferazzoli, Antonella Petrillo, Raffaele Cioffi, Fabio De Felice, Giuseppina Piscitelli

- > Analysis of SMEs as a Target Group for Research Institute Services (#62)

Daniel Ranke, Andreas Aichele, David Görzig, Michael Luckert, Jörg Siegert, Thomas Bauernhansl

- > Metadata Management in a Big Data Infrastructure (#65)

Roxana-Maria Holom, Katharina Rafetseder, Stefanie Kritzinger, Harald Sehrschönb

09:00 am – 10:30 am

Expo Room 2

ISM-WINLOG

Process Monitoring and Traceability in a 4.0 Perspective

Chair: Francesco Longo, University of Calabria

- > Temperature Simulation and Control in Refrigerated Storage Chambers for Fruit (#8)

Honorato Ccalli Pacco

- > Blockchain and Agricultural Supply Chains Traceability: Research Trends and Future Challenges (#71)

Giovanni Mirabelli, Vittorio Solina

- > How to Increase the Sustainability of the Agri-food Supply Chain Through Innovations in 4.0 Perspective: a First Case Study Analysis (#57)

Stefano Saetta, Valentina Caldarelli

- > A Decentralized Application for the Traceability Process in the Pharma Industry (#63)

Ferdinando Chiacchio, Lucio Compagno, Diego D'Urso, Luca Velardita, Philipp Sandner

ISM Proceedings Publication

The ISM proceedings will be published as part of the Elsevier Procedia Manufacturing. Procedia Manufacturing is an open access journal focusing entirely on all the important topics in the field of manufacturing engineering. Procedia Manufacturing enables fast dissemination of its content (the articles are Open Access and indexed in SCOPUS database) so that conference delegates can publish their papers online on ScienceDirect.

International Journal Special Issues

The authors of the best papers submitted and presented at ISM will be invited by direct email after the end of the conference to extend their work and contribute to International Journal Special Issues and Book Series dealing with the topics of Industry 4.0 and Smart Manufacturing.

International Journal of Simulation and Process Modeling

Special Issue on: "New Challenges and Solutions for Industry 4.0 and Smart Manufacturing"

Springer Series on Internet of Things

Special Issue on: "Industry 4.0 and Industrial Internet of Things"

IET Collaborative Intelligent Manufacturing

Special Issue on: "Collaborative & Intelligent Manufacturing in Smart Manufacturing and Industry 4.0"

ISM 2019 Awards

The ISM 2019 Awards will be delivered during the Gala Dinner.

The **ISM 2019 Best Paper Award** is assigned by the ISM 2019 Best Paper Award International Committee and selected among the top quality papers presented at ISM based on originality, scientific quality and impact on the manufacturing domain.

The **Industrial Award** is assigned by the ISM 2019 Industrial Partners Committee and selected among the top quality papers presented at ISM that have the greatest impact on industrial practice and provide relevant advances to manufacturing systems.

The **ISSIP-IBM Best Paper Award “Best Service Innovation Paper”** is assigned by ISSIP (International Society of Service Innovation Professionals) in collaboration with IBM to the best paper dealing with promoting service innovation for our interconnected world and in particular in industrial domain.

Social Activities

Named after Giovan Battista Amico, the astronomer born in the royal city of Cosenza at the beginning of the 16th century, the Planetarium is one of the biggest and most innovative in Italy. The audience will live a fascinating immersive experience, comfortably seated on swinging and tilting armchairs. They will be able to watch the simulated astronomical phenomena such as the movement of an earth revolution, the passage of an asteroid and countless other scenarios and the movements that occur in the Sky with the passing of hours, days, years, centuries and even millennia, all projected onto the hemispherical dome with a qualities that only a few planetariums in the world can guarantee. The technological apparatus that allows the projection, a Starmaster ZMP of Zeiss, unique in Italy and among the best in Europe, is composed of an optical and precision mechanical equipment for the representation of the starry sky (about 4000 stars). All the technological principles of the projection system have been conceived in order to reproduce in the best way the astronomical and physical laws of nature.
